## ARTICLES OF AGREEMENT

THIS AGREEMENT, made on the day of July 25, 2018, by and between CITY OF FAIRFIELD, party of the first part, hereinafter called the CITY, and VSS INTERNATIONAL, INC., party of the second part, hereinafter called the CONTRACTOR.

It is understood Engineer representing the CITY shall be the City Engineer of Fairfield, acting directly or through properly authorized agents.

WITNESSETH, that the CONTRACTOR and the CITY, for the consideration hereinafter named, agree as follows:

### I. SCOPE OF WORK

The CONTRACTOR hereby agrees to furnish all of the materials and all of the equipment and labor necessary and to perform all of the work shown on the plans and described in the specifications for the project entitled:

### **PAVEMENT MAINTENANCE PROJECT 2018 - PHASE 2, CORDELIA & GREEN VALLEY**

all in accordance with the requirements and provisions of the following Documents which are hereby made a part of this Agreement:

- a. Plans prepared for same by Harris & Associates  
numbered T-1, K-1, P-1 to P-12, ST-1 to ST-12, CD-1 to CD-4 (30 sheets)  
and dated April 27, 2018
- b. Advertisement for Bids
- c. The Accepted Bid, dated May 23, 2018
- d. Instructions to Bidders
- e. Specifications consisting of:
  - 1) Special Provisions.
  - 2) City of Fairfield Standard Details and Specifications, 2017 edition.
  - 3) Standard Specifications issued by State of California, Department of Transportation, Division of Highways, dated 2015.
- f. Performance Bond, dated July 3, 2018.
- g. Labor and Material Bond, dated July 3, 2018.
- h. Addendum No. 1 dated May 17, 2018.

All of said documents are intended to cooperate so that any work called for in one and not mentioned in another, or vice versa, is to be executed and performed the same as if mentioned in all of said documents. Said documents, comprising the complete Contract, are sometimes hereinafter referred to as the Contract Documents. Should there be any conflict between the terms

of this instrument and the bid or proposal of CONTRACTOR or any of the other Contract Documents, this instrument shall control.

**II. TIME OF COMPLETION**

- a. The work to be completed under this Contract shall be commenced upon written notice to proceed.
- b. The work shall be completed within **45** working days after the date of written notice to proceed.
- c. Failure to complete the work within the number of days stated in this Article, including extension granted thereto as determined by the Engineer, shall entitle the City to deduct from the monies due to the CONTRACTOR as "Liquidated Damages" (LDs) an amount equal to **Five Hundred Dollars (\$500)** for each calendar day or fraction thereof that expires after the time specified herein of the Contractor to complete the work and the facility or improvements are useable for its intended use. LDs shall apply cumulatively and shall be presumed to be damages suffered by the City resulting from delay in the completion of work.
- d. Liquidated Damages for delay in completion of work shall only cover administrative, overhead, general loss of public use damages, interest on bonds and lost revenues when applicable, suffered by the City as a result of delay. LDs shall not cover the cost to complete the work, damages resulting from defective work, costs of substitute facilities, or damages suffered by others who seek to recover their damages for the City (for example, delay claims from other contractors, subcontractors, tenants, or third-parties, and defense costs thereof).

**III. CONTRACT SUM**

- a. The CITY shall pay to the CONTRACTOR for the performance of the Contract the amounts determined for the total number of each of the following units of work completed at the unit price stated thereafter. The number of units contained in the attached schedule is approximate only, and the final payment shall be made for the actual number of units that are incorporated in or made necessary by the work covered by the Contract.
- b. Extra work not included in Article I, but authorized after the date of the Contract that cannot be classified as coming under any of the Contract units, may be done at mutually agreed-upon unit prices, or on a lump sum basis, or under the provisions of Section 9 of the City of Fairfield Standard Specifications and Details General Provisions.

PROPOSAL

**PAVEMENT MAINTENANCE PROJECT 2018 - PHASE 2, CORDELIA & GREEN VALLEY**

To the City Clerk of the City of Fairfield:

The undersigned declares that he has examined the locations of the proposed work, that he has examined the plans, specifications, and all the contract documents, and hereby proposes to furnish all materials, labor, equipment, and perform all the work in strict accordance with said plans, specifications, and contract documents in consideration of the attached schedule.

The undersigned further agrees that, upon written acceptance of this bid, he will within 15 working days of receipt of such notice execute a formal contract agreement with the City of Fairfield, with necessary bonds and certificate and city standard form endorsement of insurance. He also agrees that, in the case of default in executing the contract, the proceeds of the check or bond accompanying his bid shall become the property of the City of Fairfield.

The undersigned agrees that, if awarded the contract, he will commence the work upon written notice to proceed and shall diligently prosecute the same to completion before the expiration of **45 working days** from the date of said written notice to proceed.

Bids are to be submitted for the entire work.

The amount of the bid for comparison purposes will be total amount of bid.

The bidder shall set forth for each unit basis item of work an item price and a total for the item, and for each lump sum item a total for the item, all in clearly legible figures in the respective spaces provided for this purpose. In the case of unit basis items, the amount set forth under the "Total" column shall be the extension of the item price bid on the basis of the estimated quantity for this item.

In case of discrepancy between the item price and the total set forth for a unit basis item, the item price shall prevail, provided, however, if the amount set forth as an item price is ambiguous, unintelligible or uncertain for any cause, or is omitted, or is the same amount as the entry in the "Total" column, then the amount set forth in the "Total" column for the item shall prevail and shall be divided by the estimated quantity for the item and the price thus obtained shall be the item price.

The following quantities are approximate only, being given as a basis for the comparison of bids, and the City of Fairfield does not expressly or by implication agree that the actual amount of work will correspond therewith and reserves the right to increase or decrease the amount of any portion of the work or to omit portions of the work as may be deemed necessary or advisable by the Engineer. The undersigned further agrees to accept the aforesaid unit bid prices in compensation for any additions or deductions caused by variation in quantity due to more accurate measurement or by any changes or alterations in the plans or specifications of the work.

Bidder acknowledges receipt of the following addenda:

## VSS International, Inc. | About Us

VSS International, Inc. is the premier pavement preservation and maintenance contractor in the western United States. Specializing in chip seals (asphalt rubber and conventional), cape seals, multi-layers, slurry seal and micro surfacing preservation technologies. VSSI is a recent merger of three Basic Resource's entities: International Surfacing Systems, Valley Slurry Seal, Inc., and VSS Emultech. Their first pavement preservation operation dates back to 1951 for slurry seal and in the 1980's for asphalt rubber chip seal.

VSSI currently operates in Arizona, California, Oregon, Washington, Nevada, Idaho, New Mexico, and Texas. Apart from operating within the western U.S., VSSI has subsidiaries in Jamaica and in the Dominican Republic as well as pavement preservation related projects throughout the world.

The company owns and operates three asphalt emulsion plants in California. These plants produce a broad range of emulsions for the highway industry, including sophisticated polymer and rubber modified materials for specialty applications. VSSI also manufactures the very best in asphalt rubber blending technologies, slurry/micro surfacing machines and emulsion mills. Our MacroPaver, MiniMac machines and Emultech mills can be found in service worldwide.

VSS International, Inc. offers a range of non-construction services including technical advice on all aspects of asphalt technology, from refining and product design to manufacture and application. They also offer agreements utilizing VSS technology in polymer and rubber modified asphalts, multi-grades, slurry and micro surfacing systems and equipment, chip sealing emulsions, emulsion manufacturing, and production mill packages.

VSSI belongs to the Basic Resources family of companies, and thereby has access to additional capabilities. Among the additional resources VSSI can call upon are four asphalt plants, 7 concrete plants, and 11 aggregate quarries belonging to sister companies. In addition, these sister companies provide expertise, subcontracting resources, and other opportunities to VSSI.

VSSI's broad range of capabilities and products allows them to maintain pavement for their clients with the best, most cost effective procedures. It is their firm belief that the best way to grow their business is to provide the best possible products and customer service, thereby encouraging their clients to not only continue maintaining their valuable pavement infrastructure but also recommend pavement maintenance to additional clients.
